Identify one thing you are taking from today. What is the next step?

Survey for a presentation

The need for more collaboratives including LEA, States Attorney's, Judges, etc.

Always see the client through all of the red tape - don't forget they are a human being needing assistance.

So grateful! Take away: continuous awareness of harm reduction conversation and highlighting our own biases in my own role as a provider and a community member

Thank you for this! Brainstorm with my supervisor where we can increase harm reduction within the rules that DOC gives us.

I have a lot left to learn, including better awareness of the resources available right here. Next steps: education on substance use and substances in general.

awareness regarding disenfranchising a probationer when I am communicating with them

I am taking away energy and the desire to persist in trying to connect with people who use drugs.

That we are moving towards more transparent harm reduction, need for safer injection sites and more trauma informed patient centered care

Identify one thing you are taking from today. What is the next step?

i have so much work to do!!!

All of the ways in which various providers are using harm reduction

To continue to collaborate with community partners; continue the conversation about Harm Reduction.
