

October 10, 2022

Dear Patient -

I'm excited to provide an update about changes coming to Northwestern OB/GYN. We will soon be adding midwifery services to our practice and plan to have a team of midwives join us by the start of next year. We know that midwifery is of interest to our community, and we are pleased to be able to expand our services.

We are currently recruiting a team of midwives, who would join our two physicians, Dr. Lawrence Sullivan and Dr. Leonard Tremblay. Dr. Tremblay is working toward retirement and in December of this year he will reduce his hours, staying on as a per diem provider to support patients at least one week each month.

With Dr. Tremblay's eventual retirement, we have begun the recruitment process for a permanent physician as his replacement. He has been such a warm, dedicated and compassionate provider, we know that his will be tough shoes to fill.

You can expect to see more information shared with the community about midwifery services as our process moves forward. If you have any questions, please do not hesitate to contact me.

Sincerely,

Jill Torrey, Director of Business Operations
