

Meet Our Staff ...

Katherine Shattuck, C-PNP, C-PMHS

Katie has spent many years working with children with developmental and behavioral concerns. She started her career in North Carolina and then moved to Oregon and now resides in Vermont. She has worked with children from birth up to 22 years of age. Her passion is the diagnosis and treatment of many developmental and behavioral disorders including Autism Spectrum Disorder, Intellectual Disability, ADHD, anxiety/depression, cerebral palsy, and various genetic disorders.

Meghann Howrigan, Speech Language Pathologist (SLP)

Meghann is a clinical fellow SLP who recently graduated from the University of Vermont with her master's degree in communication sciences and disorders. Meghann has experience working in schools and clinics with clients across the lifespan. She is passionate about strengths-based care and helping clients access communication to express themselves.

Katherine (Kat) Parker, Medical Assistant

Kat has worked in medical fields for 14 years. She has worked in a variety of specialties, such as Cardiology, Neurology, and Hemodialysis and mental health. She was born and raised in Vermont and has lived all over the state. Kat has a passion for helping people and kids living with neurodivergences. Kat is a nerd at heart and can talk about D&D, Disney, Marvel and more. Kat has a cat who often likes to get into mischief.
