October 23, 2026

Dear Patient:

I am happy to share that NMC has hired a temporary urologist to help ensure uninterrupted care for the patients of Northwestern Urology.

As you may remember, Dr. Kevan Sternberg will be leaving NMC in December, and we are actively recruiting to find a permanent replacement for him because we know this service is so important to our patients and supports our mission of providing exceptional care for the community. The temporary urologist will provide comprehensive urology services, including seeing patients in the clinic and performing surgical procedures, helping to ensure continuity of care while we complete our recruitment efforts.

In addition, Nurse Practitioner Jackie Bray will continue caring for patients in the practice and will remain an important part of our urology care team during this transition.

We will continue to reach out with additional updates, and we appreciate your understanding. If you have questions about the practice, feel free to reach out!

Sincerely,

Kristy Cushing
